Lec #1

Love Babbar mean Stack Developer

Lec(1). Introduction

web Development Kya Hota Hai

→ Intro   love Babbar
                  ↳ Amazon
                  ↳ Microsoft

Full stack →
→ "web" Development ⇒
   ↳ Jala h ek Paakaa
       Bhut sare Documents.
       Ka.

It is system of collection
of Docs and Resources
we can access it with
[internet]

web is small entity from
Internet

web - subset of intearnt

web Development
- → (websites) → Static conten → Read only → Blogs) wikpedia
- → (web application)
  - Dynamic in Nature.
  - user interaction is available.

Both are in use Still.
it Depends on Requirement
for Example → Linkedin, facebook.

web application :-
①
  → front end / UI

  Visualization for user
  Interaction is front end.
  HTML/CSS/JS + React.

② Backend
Engineer

→ (BACK-END) → Brain of your app
web app.
where we Define logic
and functionality

Logic.
↓
win

Front end

Node Js

o/x

where Logic is Defined.
→ Backend → win, loss, draw
→ like credentials are.
ok or Not Logic.
Defined

③ Database Layer - for store Data
and where it is
stored that is called Database.
Example → SQL, NoSQL.

[Mango DB]

we store Data
in Database

Full Stack Development

Who have all Knowledge
- Front end.
- Back end.
- Database. DB

→ MERN stack

Mango   ExpressJS   React   NodeJS
DB
↑   ↓
Database   Front   Backend.
              end   ↑

Best use,
→ Pen/note book
← learn by applying.
→ always add your touch like
    ↳ Google ← Dev → media   try to add
            Doc   others S.O   more features

→ Practice.

→ (Code medium) → Dev

→ Share Your Progress.
